## MUTINY OF CONVICTS

Three Make Desperate Efforts to Escape from Penitentiary.

### THEIR PLAN FAILED

For Three Hours They Stand Guards Off Inside the Walls—Three Men Shot Down During That Time, One Fatally.

Frankfort, Aug. 20.—Officials of the state penitentiary and citizens of Frankfort were thrown into a state of wild excitement this morning by a mutiny in prison started by an attempt to gain their liberty on the part of three desperate murderers, Lafayette Brooks of Morgan county and Wallace Bishop and T. Mulligan of Kenton county.

Before the riot, which began at 6 o'clock and last until after 10, was quelled and the mutinous convicts captured, Bishop was fatally wounded, Mulligan was not in the shoulder and a negro convict, Albert Ransome of Louisville, whom desperadoes had pressed into service, was hit by a rifle ball.

The mutiny was started while Brooks, Mulligan and Bishop, one of whom had a pistol concealed about his person, were coming out of the dining room at 6 o'clock to answer hospital call. Suddenly one of the convicts drew a weapon and compelled Guard A. G. Gill to give up his arms. Guard F. F. Hurst, who rushed to Gill's assistance, was captured by the convicts. Capt. Mat Madigan, acting as warden, then rushed forward with six guards and fired on the bunch but no one was wounded.

The convicts then ran across the yard and at the entrance to the reed department of the chair factory captured Charles Willis, of Clark county, a foreman. They covered him with a pistol and placed him between them and the guards retreated to the reed department from whence they could command a good view of the entire yard. At the window they stationed Willis and Brooks, with revolvers in hand, took a position just beside the captive resting the muzzle of the weapon on the foreman's left side. The convicts then defied Warden Lillard to attempt to capture them shouting they would kill the foreman at the first move made against them.

By this time several hundred citizens, many of them heavily armed, had gathered at the prison gates. But the warden denied admission to all. He issued orders for all shops to close and for all prisoners to be returned at once to their cells. He then placed a guard of sixty men around the building in which the desperadoes had barricaded themselves and called on them to surrender. The convicts' only reply was a taunt.

For the protection of Willis, the warden determined to starve the convicts into submission. In about an hour a note was dropped from the window of the room where they had taken refuge asking Warden Lillard and Deputy Warden Madigan to come up under a flag of truce and to deal with them. This demand was ignored.

Shortly after this James Buckley, former city work-house keeper, and Morgan Brewer, former guard at the penitentiary, climbed to the roof of a residence overlooking the building in which the convicts had taken refuge and fired several shots into the room where the desperadoes were intrenched. They were compelled to desist, however, as Willis was forced to the window in line of the fire. He called to the men to stop shooting and informed them that the negro convict, whom the desperadoes had forced into service, had been shot in the shoulder.

At 9 o'clock, another note was dropped from the convict's window offering to surrender if the men were insured safe delivery from the cell house. This request was ignored. The convicts asked that Capt. Lillard and Deputy Madigan come in person to escort them, but it was believed this was merely a ruse to kill the officials.

Latter another letter was brought from the desperadoes by Frank Brooks of Bond county. The note stated that if the warden would come to the head of the steps leading to the reed department the convicts would surrender, first sending their weapons down by Brooks. Warden Lillard prepared to accept terms of this note and as a matter of precaution a half dozen guards were placed in the hospital overlooking the reed department.

Warden Lillard, accompanied by eight men, then proceeded to the foot of the stairway of the department. Suddenly the crack of a Winchester was heard, showing that the note was a ruse. "We got Bishop," shouted the guard. "He is dead." The prisoners had emerged from the reed room as they had promised with hands up, but as they proceeded down the stairway Bishop dropped his hands to his side as if to draw a weapon. He had hardly made a motion when one of the warden's party fired, inflicting a fatal wound. When Bishop fell Mulligan and Brooks sank to their knees, begging the warden to save their lives, and by 10-20 o'clock the two desper-

does, heavily shackled and accompanied by ten men with withdrawn pistols, were placed in cells and quiet restored.

After the men had been secured and locked up, it was discovered that Mulligan had been wounded in the shoulder, though he was not seriously hurt.

### NEGROES OVERAWE BOERS.

Since Peace Was Declared They Resort to Lawlessness and Assault Women

London, Aug. 20.—Mail advices received here from Johannesburg indicate the negro problem is growing more acute and causing the authorities infinite worry. The situation can be better told by quoting words of some of the foremost South African authorities:

"On the question of natives depends the whole future of the new colonies whether Boers will loyally accept British rule or continue in a state of sullen resentment."

"Among the immediate dangers are native attacks on Boers returning to their farms and attempts of natives to assault white women are threatening to lead to serious conflicts between the Boers and the blacks. Under the old regime, crude, but simple retribution for assaults on women, was shooting on sight. Now, however, there is no legislation on the subject, and the English authorities are hesitating to enact laws until all parties concerned can voice their opinions. Hesitancy to deal severely with natives is causing both Boers and Afrikanders intense irritation, and encourages blacks to truculent effrontery."

"Another phase of the problem is the unwillingness of the blacks to forego their lazy existence in concentration camps where thousands were gathered during the war and far more serious is the fact that a great number of blacks in the country have managed to secure arms. There is, therefore, anomalous situation of armed whites and armed blacks living in the proximity of outlying farms. Experienced British colonials strongly favor universal disarmament of natives and prompt legislation making assaults on women capital offense."

### THE FLAG WILL FLOAT.

Efforts Made to Remove American Flag from Cuba Voted Down.

Havana, Aug. 20.—Senator Salvador Cisneros and the marquis of Santa Lucia have presented a motion in the Cuban senate demanding the removal of the United States coat of arms from the arsenal, the removal of the United States flags and every trace of anything suggestive of the United States. Senator Cabello and Betancourt signed the motion.

The instant the project was read Mendez Capote sprang to his feet and denounced the motion as childish in the extreme and unbecomingly dignified men. It was not, he said, in the jurisdiction of congress, but of the president, who could be relied on not to take away the emblems of a nation to whom all credit for their liberty was due.

Senator Cisneros defended the project saying that the act of the United States in putting up the emblems in a country not their own was unjustifiable.

Senor Capote insisted on a vote without further discussion and the motion was voted down unanimously, excepting the vote of Cisneros.

### ARRESTED FOR BARTHOLOMEW

A Man Answering His Description Is in Jail at San Francisco.

San Francisco, Aug. 20.—A man giving the name of Thomas Kelly has been arrested here and lodged in the city prison on suspicion of being William Bartholin, wanted in Chicago to explain the murder of his mother and the girl named Minnie Mitchell. The man was brought to prison in heavy irons. Detectives refuse to talk about the case.

The Call says the prisoner declared to officers he must be wanted for beating a woman to death, but said he knew nothing of the case. He admitted being from Chicago, but said he left there some months ago. He claimed he had been working on a sailing vessel since. He told the officers he was ordered to take the captain's trunk ashore and did, and on landing was arrested.

### Boer Generals in Holland.

Utrecht, Holland, Aug. 20.—Boer Generals, Botha, DeWet, Delarey, accompanied by Dr. Leyds and Messrs. Fisher, Wessels, Wolmarans, Reitz and others, arrived here from The Hague to visit former President Kruger and consult with him on the South African situation. Large crowds assembled at the railroad station and in the streets and warmly applauded the Boers. Spectators at the station sang the Boer national anthem.

This is the second time the trustees have deferred action on the matter.

### Forest Fires in Wyoming

Cheyenne, Wyo., Aug. 20.—A telephone message from Saratoga states the forest fire is becoming more alarming and unless the interior department acts promptly much valuable timber and possibly mining camps will be destroyed. Governor Richards notified the interior department of the threatened danger in Carbon county and asked special agents to be hurried to the scene.

BY CONNELLY & CARNES.

Per Week, 10c. - Per Month, 40c.

THURSDAY, AUGUST 21, 1902

### STATEMENT FROM MR. BOOKMAN.

Madisonville, Texas, Aug. 19.—Messrs. Connelly & Carnes:

Will you kindly publish the enclosed in your daily at the earliest possible date, and also hand same to Mr. Buchanan with the request that he publish same in Pilot. By so doing you will greatly oblige Your Friend,  
W. F. Bookman.

Madisonville, Texas, Aug. 19.—Two weeks ago, during the absence of the editor of the Meteor, Mr. W. L. Turner, I wrote and published an article regarding the Brazos valley floods that has given offense to many of the Meteor's best friends in the city of Bryan. My object in writing this is to vindicate Mr. Turner, and absolve him from all blame. He, being absent, knew nothing of the article until after the paper was printed and circulated.

As for myself, I had no more idea that I was "digging" into a man in Bryan than one in Kalamazoo. There is no stronger friend to Bryan in Madison county than myself, for her big-hearted business men have endeared themselves to our people by their many kindnesses and manifest appreciation of our trade. When I wrote the article my thoughts were all centered on another section of the Brazos bottom country where the conditions described did exist for many years if they do not now. So, if the article did not apply to Bryan, and it certainly was not intended to do so, there has been no harm done and nobody has a kick coming.

But my main object in writing this is to take all of the blame off of Mr. Turner, and I hope this explanation will prove satisfactory to his many friends in Bryan.

You will find this writer, and the Meteor, ready to aid in the good cause of building levees for the protection of the Brazos bottom

plantations, and ready at any time to prove our loyalty and friendship to Bryan. Very Truly,  
W. F. Bookman.

The Beaumont Enterprise figures that a spindle top oil well, with capacity of 1000 barrels a day, pumped out, yields \$200 per day gross, in cash. It says that making liberal allowance for all expenses, \$100 of this is clear profit, and that an oil well at Beaumont is now worth more than ever before in the history of the business. This does not seem a far fetched calculation, for \$100 per day is \$36,500 per year, which is twenty per cent on \$182,500. The Enterprise says that the boring of new wells is taking on new life, and greater activity is expected to begin in September.

The Farm and Ranch says that an unanswerable argument in favor of the policy recommended by the Texas Cotton Growers' Association of slow selling of cotton by the farmers, is the fact that year after year the price has averaged about two cents higher in July, when the bulk of the crop is in the hands of speculators, than in October and November, when farmers would be benefited by an advance. This is \$10 per bale for the speculator. Cotton is the subject of the shrewdest commercial gambling known to human cupidity, and the victims can block the game if they will.

The Heywoods are said to have refused \$500,000 for a little patch of ground at Jennings, thought to be very productive of oil wells.

## CAUSED A SENSATION

Serious Charges Made Against Governor Brady of Alaska.

### PROGRESS RETARDED

Donald Fletcher Says the Governor's Policy Permits Land Grabbing and is in the Interest of a Few Favored Ones.

St. Paul, Aug. 20.—Serious charges against Governor Brady of Alaska, have been made in the Transmississippi congress by Donald Fletcher of Seattle, who asserted that the governor was the exponent of a policy of oppression and repression and was the active agent of the great commercial companies in delaying self-government while they gobbled up the best of a magnificent country.

He took issue with Governor Brady's recommendations in his last report to congress for the full extension of the land laws to Alaska, asserting that the recommendation had an ulterior purpose and was in the interest of the political element dominating the progress of the territory. Their application he charged, would be interminably delayed by quibbling and filibustering in congress.

"Then would follow years of waiting and waiting," continued the speaker, "while his bosses would go on gobbling up the best of that magnificent country worth many times the entire national debt. And that is part of the game."

He also asserted that Governor Brady had been consistently an enemy of the territorial government for selfish aims.

As soon as his address was completed, F. B. Thurber of New York, presented resolutions demanding an investigation of the charges. He took exception to Mr. Fletcher's strictures upon Governor Brady declaring that he knew the latter well and that he did not believe for a moment that his actions were dominated or dictated by any selfish motive.

Mr. Thurber created a stir while delivering a comprehensive address upon the cattle industry, by asserting that after three months investigation he has been unable to substantiate the charges that there is a "beef trust." His opinion was that the large increase in cost of all meats is due to natural causes, beef prices having been advanced by the failure of last year's corn crop and the consequent increases of cost in fattening cattle.

After speaking exhaustively of the process by which beef cattle reach the butcher shops, Mr. Thurber asserted that there was no meat combine.

A number of the delegates took issue with Mr. Thurber on this question and the discussion was quite animated for some time.

#### Conductor Seriously Injured.

Vinita, I. T., Aug. 20.—Conductor Kelly of the St. Louis, Iron Mountain and Southern railroad was seriously injured in a wreck between Wagoner and Fort Gibson, but will likely recover. Conductor Kelly and his crew were running an engine to Fort Gibson for water when the engine suddenly went into the ditch. The cause of the wreck is unknown.

#### An Eye Knocked Out

Texarkana, Tex., Aug. 20.—R. Thompson, a prominent young business man, met with a shocking accident here. He was passing a rear door of the Arkansas Furniture company, when a piece of scantling thrown by a negro who was cleaning out the store room struck him in the eye, bursting it from its socket and causing its total loss.

#### Impaled on a Pick.

Paris, Tex., Aug. 20.—While the 11-year-old son of J. J. Gunter, living near Garrett's Bluff, was up a peach tree reaching out among the branches for a peach the limb broke and precipitated him on a picket fence beneath. One of the sharp points of which penetrated his lung and inflicted a fatal wound. He died in thirty-six hours.

#### Sued for Damages.

Dallas, Aug. 20.—Mrs. Alice Crenshaw, wife of the section hand who was killed a few days ago by an electric car coming from Fort Worth, has filed this side of Grand Prairie, has filed suit in the Forty-fourth district court against the Northern Texas Traction company for \$25,000. Crenshaw left two minor children.

#### Fuel Famine Threatened.

Pittsburg, Aug. 20.—The Post publishes a story to the effect that a fuel famine is threatened for the mills in this district, and that 50,000 men may be thrown into enforced idleness through the lack of coal and coke. The trouble comes from a scarcity of engines to move the loaded cars.

#### Old Indian Scout Dead.

Missoula, Mont., Aug. 20.—Chief Charlotts, the famous Indian scout of the Rocky mountain district, is dead. He was the son of Victor, chief of the Amalgamated tribe. Charlotts has always opposed the opening of the Flathead reservation for settlement.

#### Drowned in a Pit.

Coalgate, I. T., Aug. 20.—The horse, buggy and hat of William Estrop, supply agent of the Atoka Coal and Mining company, were found near an old strip pit at Lehigh, four miles south of here. The pit was dragged and Estrop found dead in twenty-two feet of water.

#### KILLED THE CONDUCTOR

Negroes Shoot Him to Death on His Train in North Carolina.

Raleigh, N. C., Aug. 20.—Roadmaster Fred Stevers of Stevers, Va., was shot and killed and Jim Mitchell, a negro porter, was dangerously wounded in a fight with disorderly negroes on a southbound Seaboard Air Line train near Middleburg. The negroes had taken seats in the coach reserved for whites. Conductor Clements ordered them to the coach for negroes. The negroes protested, but obeyed.

When in the "Jim Crow" coach one of the negroes, named Joe Cole, struck at the conductor. Roadmaster Stevers came to the conductor's rescue. The negro pulled a pistol and Stevers clasped him around the body, but the negro twisted his arm around and getting his pistol against Stevers' head shot him, Stevers falling dead on the coach floor. Mitchell, the porter, rushed toward Cole as he pointed the pistol at Conductor Clements and was shot in the abdomen.

Passengers captured one of the participants and two jumped from the train, escaping to the woods. Bloodhounds are being used to chase them down. Requests for the use of the militia have been made, as there are rumors that a lynching may be attempted.

## FIGHTING CATTLE TAX

Stock Owners Secure an Injunction in the Courts.

## BASIS FOR THE CLAIM

The Petition Says the Secretary of the Interior Has No Right to Enforce the Laws of the Chickasaw Nation Against Them.

Washington, Aug. 20.—Application has been filed in the supreme court of the District of Columbia for an injunction preventing Secretary Hitchcock and other interior department officials from compelling cattle owners to pay the fee of twenty-five cents imposed by the Chickasaw nation for each head of stock not belonging to a member of the tribe grazing on their lands, and restraining the officials from seizing the cattle now grazing on the Indian lands in violation of the act of the Chickasaw legislature.

Justice Claybaugh granted a temporary writ and ordered Secretary Hitchcock to appear Sept. 19, and show why a permanent injunction should not be issued. It is contended in the petition that Secretary Hitchcock is only a ministerial officer and that he has no authority to undertake the enforcement of a law of the Chickasaw nation.

The petitioners are William G. Maxwell and Philip G. Witherspoon of Gainesville, Tex.; Isaac H. Harness, Thomas Percy, R. L. Glover and Milton F. Ikard of Chickasha; I. M. Keyes, of Kansas City and J. B. Spragins of Ardmore, I. T. They allege that they represent many other petitioners, and that all told, the owners of more than 100,000 head of live stock are interested in the litigation.

## MUTINY OF CONVICTS

Three Make Desperate Efforts to Escape from Penitentiary.

### THEIR PLAN FAILED

For Three Hours They Stand Guards Off Inside the Walls—Three Men Shot Down During That Time, One Fatally.

Frankfort, Aug. 20.—Officials of the state penitentiary and citizens of Frankfort were thrown into a state of wild excitement this morning by a mutiny in prison started by an attempt to gain their liberty on the part of three desperate murderers, Lafayette Brooks of Morgan county and Wallace Bishop and T. Mulligan of Kenton county.

Before the riot, which began at 6 o'clock and lasted until after 10, was quelled and the mutinous convicts captured, Bishop was fatally wounded, Mulligan was not in the shoulder and a negro convict, Albert Ransome of Louisville, whom desperadoes had pressed into service, was hit by a rifle ball.

The mutiny was started while Brooks, Mulligan and Bishop, one of whom had a pistol concealed about his person, were coming out of the dining room at 6 o'clock to answer hospital call. Suddenly one of the convicts drew a weapon and compelled Guard A. G. Gill to give up his arms. Guard F. F. Hurst, who rushed to Gill's assistance, was captured by the convicts. Capt. Mat Madigan, acting as warden, then rushed forward with six guards and fired on the bunch but no one was wounded.

The convicts then ran across the yard and at the entrance to the reed department of the chair factory captured Charles Willis, of Clark county, a foreman. They covered him with a pistol and placed him between them and the guards retreated to the reed department from whence they could command a good view of the entire yard. At the window they stationed Willis and Brooks, with revolvers in hand, took a position just beside the captive resting the muzzle of the weapon on the fireman's left side. The convicts then defied Warden Lillard to attempt to capture them shouting they would kill the foreman at the first move made against them.

By this time several hundred citizens, many of them heavily armed, had gathered at the prison gates, but the warden denied admission to all. He issued orders for all shops to close and for all prisoners to be returned at once to their cells. He then placed a guard of sixty men around the building in which the desperadoes had barricaded themselves and called on them to surrender. The convicts' only reply was a taunt.

For the protection of Willis, the warden determined to starve the convicts into submission. In about an hour a note was dropped from the window of the room where they had taken refuge asking Warden Lillard and Deputy Warden Madigan to come up under a flag of truce and to deal with them. This demand was ignored.

Shortly after this James Buckley, former city work-house keeper, and Morgan Brewer, former guard at the penitentiary, climbed to the roof of a residence overlooking the building in which the convicts had taken refuge and fired several shots into the room where the desperadoes were entrenched. They were compelled to desist, however, as Willis was forced to the window in line of the fire. He called to the men to stop shooting and informed them that the negro convict, whom the desperadoes had forced into service, had been shot in the shoulder.

At 9 o'clock, another note was dropped from the convict's window offering to surrender if the men were insured safe delivery from the cell house. This request was ignored. The convicts asked that Capt. Lillard and Deputy Madigan come in person to escort them, but it was believed this was merely a ruse to kill the officials.

Later another letter was brought from the desperadoes by Frank Brooks of Bond county. The note stated that if the warden would come to the head of the steps leading to the reed department the convicts would surrender, first sending their weapons down by Brooks. Warden Lillard prepared to accept terms of this note and as a matter of precaution a half dozen guards were placed in the hospital overlooking the reed department.

Warden Lillard, accompanied by eight men, then proceeded to the foot of the stairway of the department. Suddenly the crack of a Winchester was heard, showing that the note was a ruse. "We got Bishop," shouted the guard. "He is dead." The prisoners had emerged from the reed room as they had promised with hands up, but as they proceeded down the stairway Bishop dropped his hands to his side as if to draw a weapon. He had hardly made a motion when one of the warden's party fired, the bullet striking Bishop in the breast, inflicting a fatal wound. When Bishop fell Mulligan and Brooks sank to their knees, begging the warden to save their lives. At 10:30 o'clock the two desper-

does, heavily shackled and accompanied by ten men with withdrawn pistols, were placed in cells and quiet restored.

After the men had been secured and locked up, it was discovered that Mulligan had been wounded in the shoulder, though he was not seriously hurt.

### NEGROES OVERAWE BOERS.

Since Peace Was Declared They Resort to Lawlessness and Assault Women.

London, Aug. 20.—Mail advices received here from Johannesburg indicate the negro problem is growing more acute and causing the authorities infinite worry. The situation can be better told by quoting words of some of the foremost South African authorities:

"On the question of natives depends the whole future of the new colonies whether Boers will loyally accept British rule or continue in a state of sullen resentment.

"Among the immediate dangers are native attacks on Boers returning to their farms and attempts of natives to assault white women are threatening to lead to serious conflicts between the Boers and the blacks. Under the old regime, crude, but simple retribution for assaults on women, was shooting on sight. Now, however, there is no legislation on the subject, and the English authorities are hesitating to enact laws until all parties concerned can voice their opinions. Hesitancy to deal severely with natives is causing both Boers and Afrikaners intense irritation, and encourages blacks to truculent effrontery.

"Another phase of the problem is the unwillingness of the blacks to forego their lazy existence in concentration camps where thousands were gathered during the war and far more serious is the fact that a great number of blacks in the country have managed to secure arms. There is, therefore, anomalous situation of armed white and armed blacks living in the proximity of outlying farms. Experienced British colonials strongly favor universal disarmament of natives and prompt legislation making assaults on women capital offense."

### THE FLAG WILL FLOAT.

Efforts Made to Remove American Flag from Cuba Voted Down.

Havana, Aug. 20.—Senator Salvador Cisneros and the marquis of Santa Lucia have presented a motion in the Cuban senate demanding the removal of the United States coat of arms from the arsenal, the removal of the United States flags and every trace of anything suggestive of the United States. Senator Cabello and Betancourt signed the motion.

The instant the project was read Mendez Capote sprang to his feet and denounced the motion as childish in the extreme and unbecomingly dignified men. It was not, he said, in the jurisdiction of congress, but of the president, who could be relied on not to take away the emblems of a nation to whom all credit for their liberty was due.

Senator Cisneros defended the project saying that the act of the United States in putting up the emblems in a country not their own was unjustifiable.

Senator Capote insisted on a vote without further discussion and the motion was voted down unanimously, excepting the vote of Cisneros.

### ARRESTED FOR BARTHOLIN

A Man Answering His Description Is in Jail at San Francisco.

San Francisco, Aug. 20.—A man giving the name of Thomas Kelly has been arrested here and lodged in the city prison on suspicion of being William Bartholin, wanted in Chicago to explain the murder of his mother and the girl named Minnie McNeill. The man was brought to prison in heavy irons. Detectives refuse to talk about the case.

The Call says the prisoner declared to officers he must be wanted for beating a woman to death, but said he knew nothing of the case. He admitted being from Chicago, but said he left there some months ago. He claimed he had been working on a sailing vessel since. He told the officers he was ordered to take the captain's trunk ashore and did, and on landing was arrested.

### Boer Generals in Holland.

Utrecht, Holland, Aug. 20.—Boer Generals, De Wet, Delarey, accompanied by Dr. Leyds and Messrs. Fisher, Wessels, Wolmarans, Reitz and others, arrived here from The Hague to visit former President Kruger and consult with him on the South African situation. Large crowds assembled at the railroad station and in the streets and warmly applauded the Boers. Spectators at the station sang the Boer national anthem.

This is the second time the trustees have deferred action on the matter.

### Forest Fires in Wyoming

Governor Richards notified the interior department of the threatened danger in Carbon county and asked special agents to be hurried to the scene.

### STATEMENT FROM MR. BOOKMAN.

Madisonville, Texas, Aug. 19.—Messrs. Connelly & Carnes:

Will you kindly publish the enclosed in your daily at the earliest possible date, and also hand same to Mr. Buchanan with the request that he publish same in Pilot. By so doing you will greatly oblige Your Friend,  
W. F. Bookman.

Madisonville, Texas, Aug. 19.—Two weeks ago, during the absence of the editor of the Meteor, Mr. W. L. Turner, I wrote and published an article regarding the Brazos valley floods that has given offense to many of the Meteor's best friends in the city of Bryan. My object in writing this is to vindicate Mr. Turner, and absolve him from all blame. He, being absent, knew nothing of the article until after the paper was printed and circulated.

As for myself, I had no more idea that I was "digging" into a man in Bryan than one in Kalamazoo. There is no stronger friend to Bryan in Madison county than myself, for her big-hearted business men have endeared themselves to our people by their many kindnesses and manifest appreciation of our trade. When I wrote the article my thoughts were all centered on another section of the Brazos bottom country where the conditions described did exist for many years if they do not now. So, if the article did not apply to Bryan, and it certainly was not intended to do so, there has been no harm done and nobody has a kick coming.

But my main object in writing this is to take all of the blame off of Mr. Turner, and I hope this explanation will prove satisfactory to his many friends in Bryan.

You will find this writer, and the Meteor, ready to aid in the good cause of building levees for the protection of the Brazos bottom

plantations, and ready at any time to prove our loyalty and friendship to Bryan. Very Truly,  
W. F. Bookman.

The Beaumont Enterprise figures that a spindle top oil well, with capacity of 1000 barrels a day, pumped out, yields \$200 per day gross, in cash. It says that making liberal allowance for all expenses, \$100 of this is clear profit, and that an oil well at Beaumont is now worth more than ever before in the history of the business. This does not seem a far fetched calculation, for \$100 per day is \$36,500 per year, which is twenty per cent on \$182,500. The Enterprise says that the boring of new wells is taking on new life, and greater activity is expected to begin in September.

The Farm and Ranch says that an unanswerable argument in favor of the policy recommended by the Texas Cotton Growers' Association of slow selling of cotton by the farmers, is the fact that year after year the price has averaged about two cents higher in July, when the bulk of the crop is in the hands of speculators, than in October and November, when farmers would be benefited by an advance. This is \$10 per bale for the speculator. Cotton is the subject of the shrewdest commercial gambling known to human cupidity, and the victims can block the game if they will.

The Heywoods are said to have refused \$500,000 for a little patch of ground at Jennings, thought to be very productive of oil wells.

## CAUSED A SENSATION

Serious Charges Made Against Governor Brady of Alaska.

### PROGRESS RETARDED

Donald Fletcher Says the Governor's Policy Permits Land Grabbing and Is in the Interest of a Few Favored Ones.

St. Paul, Aug. 20.—Serious charges against Governor Brady of Alaska, have been made in the Transmississippi congress by Donald Fletcher of Seattle, who asserted that the governor was the exponent of a policy of oppression and repression and was the active agent of the great commercial companies in delaying self-government while they gobbled up the best of a magnificent country.

He took issue with Governor Brady's recommendations in his last report to congress for the full extension of the land laws to Alaska, asserting that the recommendation had an ulterior purpose and was in the interest of the political element dominating the progress of the territory. Their application he charged, would be interminably delayed by quibbling and filibustering in congress.

"Then would follow years of waiting and waiting," continued the speaker, "while his bosses would go on gobbling up the best of that magnificent country worth many times the entire national debt. And that is part of the game."

He also asserted that Governor Brady had been consistently an enemy of the territorial government for selfish aims.

As soon as his address was completed, F. B. Thurber of New York, presented resolutions demanding an investigation of the charges. He took exception to Mr. Fletcher's strictures upon Governor Brady declaring that he knew the latter well and that he did not believe for a moment that his actions were dominated or dictated by any selfish motive.

Mr. Thurber created a stir while delivering a comprehensive address upon the cattle industry, by asserting that after three months investigation he has been unable to substantiate the charges that there is a "beef trust." His opinion was that the large increase in cost of all meats is due to natural causes, beef prices having been advanced by the failure of last year's corn crop and the consequent increases of cost in fattening cattle.

After speaking exhaustively of the process by which beef cattle reach the butcher shops, Mr. Thurber asserted that there was no meat combine.

A number of the delegates took issue with Mr. Thurber on this question and the discussion was quite animated for some time.

#### Conductor Seriously Injured.

Vinita, I. T., Aug. 20.—Conductor Kelly of the St. Louis, Iron Mountain and Southern railroad was seriously injured in a wreck between Wagoner and Fort Gibson, but will likely recover. Conductor Kelly and his crew were running an engine to Fort Gibson for water when the engine suddenly went into the ditch. The cause of the wreck is unknown.

#### An Eye Knocked Out

Texarkana, Tex., Aug. 20.—R. Thompson, a prominent young business man, met with a shocking accident here. He was passing a rear door of the Arkansas Furniture company, when a piece of scantling thrown by a negro who was cleaning out the store room struck him in the eye, bursting it from its socket and causing its total loss.

#### Impaled on a Picket

Paris, Tex., Aug. 20.—While the 11-year-old son of J. J. Gunter, living near Garrett's Bluff, was up a peach tree reaching out among the branches for a peach the limb broke and precipitated him on a picket fence beneath. One of the sharp points of which penetrated his lung and inflicted a fatal wound. He died in thirty-six hours.

#### Sued for Damages.

Dallas, Aug. 20.—Mrs. Alice Crenshaw, wife of the section hand who was killed a few days ago by an electric car coming from Fort Worth, just this side of Grand Prairie, has filed suit in the Forty-fourth district court against the Northern Texas Traction company for \$35,000. Crenshaw left two minor children.

#### Fuel Famine Threatened.

Pittsburg, Aug. 20.—The Post publishes a story to the effect that a fuel famine is threatened for the mills in this district, and that 50,000 men may be thrown into enforced idleness through the lack of coal and coke. The trouble comes from a scarcity of engines to move the loaded cars.

#### Old Indian Scout Dead.

Missoula, Mont., Aug. 20.—Chief Charlott's, the famous Indian scout of the Rocky mountain district, is dead. He was the son of Victor, chief of the Amalgamated tribe. Charlott's has always opposed the opening of the Flathead reservation for settlement.

#### Drowned in a Pit.

Coalgate, I. T., Aug. 20.—The horse, buggy and hat of William Estrop, supply agent of the Atoka Coal and Mining company, were found near an old strip pit at Lehigh, four miles south of here. The pit was dragged and Estrop found dead in twenty-two feet of water.

### KILLED THE CONDUCTOR

Negroes Shoot Him to Death on His Train in North Carolina.

Raleigh, N. C., Aug. 20.—Roadmaster Fred Stevers of Stevers, Va., was shot and killed and Jim Mitchell, a negro porter, was dangerously wounded in a fight with disorderly negroes on a southbound Seaboard Air Line train near Middleburg. The negroes had taken seats in the coach reserved for whites. Conductor Clements ordered them to the coach for negroes. The negroes protested, but obeyed.

When in the "Jim Crow" coach one of the negroes, named Joe Cole, struck at the conductor. Roadmaster Stevens came to the conductor's rescue. The negro pulled a pistol and Stevers clasped him around the body, but the negro twisted his arm around and getting his pistol against Stevers' head shot him. Mitchell, the porter, rushed toward Cole as he pointed the pistol at Conductor Clements and was shot in the abdomen.

Passengers captured one of the participants and two jumped from the train, escaping to the woods. Bloodhounds are being used to chase them down. Requests for the use of the militia have been made, as there are rumors that a lynching may be attempted.

## FIGHTING CATTLE TAX

Stock Owners Secure an Injunction in the Courts.

## BASIS FOR THE CLAIM

The Petition Says the Secretary of the Interior Has No Right to Enforce the Laws of the Chickasaw Nation Against Them.

Washington, Aug. 20.—Application has been filed in the supreme court of the District of Columbia for an injunction preventing Secretary Hitchcock and other interior department officials from compelling cattle owners to pay the fee of twenty-five cents imposed by the Chickasaw nation for each head of stock not belonging to a member of the tribe grazing on their lands, and restraining the officials from seizing the cattle now grazing on the Indian lands in violation of the act of the Chickasaw legislature.

Justice Claybaugh granted a temporary writ and ordered Secretary Hitchcock to appear Sept. 19, and show why a permanent injunction should not be issued. It is contended in the petition that Secretary Hitchcock is only a ministerial officer and that he has no authority to undertake the enforcement of a law of the Chickasaw nation.

The petitioners are William G. Maxwell and Philip G. Witherspoon of Gainesville, Tex.; Isaac H. Harness, Thomas Percy, R. L. Glover and Milton F. Ikard of Chickasha; I. M. Keyes, of Kansas City and J. B. Spragins of Ardmore, I. T.

They allege that they represent many other petitioners, and that all told, the owners of more than 100,000 head of live stock are interested in the litigation.
